PROCEDURES

The prequalification process will be conducted in two steps and will result in the selection of finalists who will be prequalified and will be issued proposal documents for this Project. The prequalified proposers will submit price and technical proposals. The technical proposals will be scored according to an established scoring system. The price will be divided by the score to determine a price per technical point. The prequalified proposer submitting the lowest price per technical point will be the apparent low proposer for the Project.

Level I will be the submittal of prequalification documents described in more detail below. After receipt of the prequalification documents, the University will review and determine a preliminary point score for each submittal. Requests for clarifying information and additional data will be made at this time, if required. After receipt and review of the clarifications and additional data, each prequalification submittal will receive a final point score.

A proposer who receives **675** or more points out of a possible **900** points based on the established rating system will be invited to participate in the Level II Interview step.

Level II will be the Interview. Proposers will be notified whether or not they have been selected for Level II Interview. Interview will address the items contained in the Level II Interview Requirements Document. Prior to the Level II Interview, the University may supplement these requirements.

Proposers will be notified whether or not they have been prequalified after the University evaluates the results of the Level II Interview.
