RFI NO.	QUESTIONS & ANSWERS
<b>1-6</b>	<p><b>Question:</b> Section 5. Your Regional Office Information of the Project Data Sheet includes: Provide the name of our LEED AP assigned to the work. This question was not included in the original Prequalification Application for HVAC Contractors in 2019. Are you requiring that we have a LEED certified employee assigned to this project?</p> <p><b>Answer:</b> No. The LEED reference is there so you may provide information on the LEED person for the project you are submitting as your "past project experience"; if it applied to the project you are submitting then please provide that information. There is no LEED personnel requirement for this project.</p>
<b>1-7</b>	<p><b>Question:</b> Please consider removing the requirement of the LEED AP on the demolition prequalification. While demolition contractors must comply with LEED recycling requirements at times, there is no LEED AP certification for demolition work. It is unlikely a LEED AP would have been part of the demolition contractor's staff on any previous project.</p> <p><b>Answer:</b> There isn't a LEED AP requirement for this prequalification. Please see RFI 1-6.</p>
