## **Design Factors and Categories for University of California, Riverside**

---

The following design factors are utilized for projects on the UC Riverside Campus:

<b>Campus Elevation:</b>	(Range) Varies from 970' to 1,400'
<b>Wind:</b>	110 MPH (usually exposure C)
<b>Rain:</b>	2 inches per hour
<b>Seismic:</b>	Seismic Design Category "D <sub>2</sub> "
<b>Snow load:</b>	None
<b>Special roof loads:</b>	None beyond the loads specified in Chapter 23 of the CBC
<b>Climate Zone:</b>	Zone 10
<b>Soil Types:</b>	Vary, check with your geotechnical engineer or soils report.
